REPORT

OF THE

BOARD OF VILLAGE TRUSTEES.

To the Voters of the Village of Rutland :

Your Trustees present the following report :—During the past year we have endeavored to keep the expenses of the village as low as possible, yet we have exceeded our appropriation as to highway tax by a small amount, though the deficit is not as large as it has been for the last few years, and this year we would have kept within our limits, notwithstanding the quantity of work that has been done, had it not been for the large amount of taxes which have been abated. The rapid growth of the village during the past year or two has compelled your Trustees to do much work in wards which have heretofore been greatly neglected.

The constant travel and traffic upon the different roads and avenues leading to the Scale Works made it necessary to put these thoroughfares in the very best possible condition; while the expense attending this work has been considerable the rapid development of this part of the village has made it desirable that the work should be thoroughly and well done. Although much labor has been expended in the south part of the village the other thoroughfares have been by no means neglected. All the streets and walks have been gravelled and worked as

necessity required, and we think they are in very good condition considering the fact that many of them were necessarily torn up by the laying of the new water pipes.

SEWERAGE.

The old main sewer which was so insufficient for the needs of the village and which has already cost the village quite an amount in the way of law suits, has been replaced as the village voted, by a much larger one which has been very thoroughly and well constructed.

The suit brought by Barney Winn against the village for alleged damages from the sewer, after being carried to the Supreme Court, was decided adversely to the village in the sum of \$696 30. A suit of Catherine Winn has been decided against the village by the last County Court, and your Trustees have paid the judgment of \$395.85 without carrying it to the Supreme Court, believing that the decision would not be changed by that court. These two suits could have been settled a year ago for \$300, but the board that year preferred to try them.

Six suits were brought by Pat. Lynch against the village for damages arising from this same old sewer. The chances of recovery in these suits were much better than in the Winn cases, three deaths having occurred in plaintiff's family from the gases of this sewer. Your Trustees having the opportunity, after advice from our legal counsellor settled the six suits for \$1,076.50.

The condition of the so-called Cherry St. sewer was such that your Trustees feared that unless some action was taken in regard to it, heavy damages would be claimed against the village by the residents of that vicinity. We decided, therefore, after advice from competent citizens, without waiting for the vote of the village, to use the old main sewer pipes as far as they would go and to carry this sewer as far as we could. This sewer was extended through Franklin and Grauger Sts., and it should now be completed by extending across River St. It is especially desirable that this sewer should be completed,

since the new streets recently laid out by the selectmen in this portion of the village, the railroad shops and all the other buildings in this vicinity, must all depend upon this sewer for drainage. The expense of completing it, so that it will perfectly drain every portion of this part of the village, will not exceed \$1,000, and your Trustees recommend that it be finished at once. If this sewer is completed we believe that the highway money in the future will take care of all sewers in the village. A sewer which was badly needed has been laid at the north end of Main St., and the sewer at the south end which was partially completed last year has been finished. Several smaller sewers have also been laid as necessity required.

Finding that the Telephone was quite largely and successfully used in other places, your Trustees, with the advice of many of our prominent citizens, hired twelve for one year for the use of the Fire Department. We would recommend that by the aid of the Telephones a much more perfect system of signals in case of fire, be adopted, as the efficiency of the department will be much increased by their use.

Your Trustees, believing that the Parks of the village which add so much to its beauty should not be neglected, have expended some money upon them. In all the Main St. Parks gravel walks have been laid, and in the Depot Park through which there is so much travel, a fine wide marble walk has been placed. The common at the south end of Main St., which has for so long been an eye sore and disgrace to that part of the village, has been fenced in a manner to correspond with the other parks of the village, the citizens having pledged themselves to beautify it by setting out trees at their own expense.

The following is a statement of the amount of the village, sewer and highway tax, showing the abatements:

Village tax,	1879,	\$9,075 28
Village sewer,	"	9,075 27

Highway tax, "	4,627 64
Total tax,	\$22,778 19
Abated on list 1879,	\$1,541 74
" " 1877-78,	44 27
" " "doubtful" on list 1878,	16 80
	<hr/> 1,602 81
	<hr/> \$21,175 38
3 per cent.,	635 26
	<hr/> \$20,540 12

The expense for building the main sewer, including surveys, covering land damage, etc., is	\$11,672 18
For extending the Cherry street sewer	1,532 45
For building the Main street sewer	522 84
	<hr/> \$13,727 49

By reference to the Auditor's report you will find the present indebtedness of the village to be \$10,280 51. By referring to the water and sewer report you will find the greater part of this is chargeable to these accounts, leaving the present indebtedness, aside from water and sewer accounts, about the same as last year.

The following suits are now pending:—

Mattie Kelley, for sickness claimed to be caused by sewer.

Tim Hurley, for damages by sewer on Mineral street.

Cain and wife, for water damages.

Aqueduct Compay, post holders, for water damages.

Mike Lynch, two suits, sewer; claims damages on account of sickness.

Your Trustees recommend that a change be made in the location of the hose companies.

We estimate for expenses for the coming year as follows :—

Gas.....	\$1,200 00
Fire Department.....	1,300 00
Current expenses.....	2,500 00
	<hr/>
	\$5,000 00

We recommend a village tax of forty cents, and some provision must be made for the payment of the sewer indebtedness.

Following will be found a list of all orders drawn by your Trustees during the past year, and other items of interest.

Respectfully submitted,

By order of the Board,

H. L. VERDER,

Clerk.

RUTLAND, VT., April, 1880.

ORDERS DRAWN BY VILLAGE TRUSTEES,

Water Commissioners' Report.

WATER COMMISSIONERS' OFFICE, }
RUTLAND, VT., April, 1880. }

To the Village of Rutland:

The undersigned herewith present their annual report. The Water Commissioners submit herewith a list of all orders drawn by them upon the treasurer, with statement in detail of the expenditures. We have drawn forty-eight orders, amounting to \$4,077.48, which are divided as follows :

EXTENSION OF WATER MAINS.

1275	feet 3 inch pipe,	Jackson Avenue.	
675	"	"	Terrill Street.
475	"	"	Strong's Avenue.
160	"	"	Center Street.
271	"	"	Williams Street.
59	"	"	Church Street.
236	"	"	Baxter Street.
250	"	"	Wales Street.
264	"	"	Maple Street.
75	"	"	Edson Street.
Cost of same.....			\$2,801 79

Delivered to George Willis, collector.

W. C. LANDON,	} Water Commissioners.
J. M. DAVIS.	
N. L. DAVIS,	

RUTLAND, April 21, 1880.

REPORT

OF THE

Committee on Water Supply.

To the Village of Rutland:

Your committee report that the work of laying the distribution pipes from the reservoir through the village was completed according to the plans proposed, and at an expense within the original estimates. The completion of this work with that of the previous year, will furnish the village for many years to come with an abundant supply of pure water.

The work is now in fine condition, both for the daily use of the inhabitants and also furnishing abundant facilities for the extinguishment of fires, for which purpose thirty-one double hydrants conveniently located, giving great force and volume of water far exceeding in efficiency the best fire engines, have been placed.

We have laid pipe of the length and size as follows:

2 feet 16 inch.

2 feet 10 inch.

8,257 40-100 feet 12 inch.

1,371 feet 8 inch.

10,230 feet 6 inch.

701 feet 4 inch.

Making a total length of pipe laid of 20,563 40-100 feet.

We have set 5 12-inch, 2 8-inch, 24 6-inch and one 4 inch valves, so located that any section of the line may be shut off for repairs without interfering with the use of the water in any other section. We have also connected with the old line on Main, Court Street and Merchants' Row,

The total amount paid on the contract with Sherman & Flagler, is	\$18,033 75
For extras, not included in the contract,	39 47
Paid for inspection and superintendence of work,	150 00
	<hr/>
	\$18,223 22

There was left a quantity of pipe and lead at the close of the work which was at a very low rate purchased and turned over to the water commissioners. The price paid for the whole was \$865.69. The material was necessary for them the have and was worth in the market at the time of purchase at least 40 per cent. above the cost of the same.

It is a matter of congratulation that so important, permanent and useful work has been accomplished in so thorough a manner and at so little cost.

Respectfully submitted,

JOHN B. PAGE,
M. G. EVERTS,
J. M. DAVIS,
W. C. LANDON,
N. L. DAVIS,
ROCKWOOD BARRETT,
THOMAS ROSS.

HENRY F. FIELD, *Treasurer.*

Rutland, Vt., April 21, 1880.

AUDITOR'S REPORT.

To the Village of Rutland:

Your Auditor respectfully submits the following statement of your finances.

After deducting abatements and collector's fees, the village tax, on list of 1879, was	\$8,204 40
The highway tax,	4,193 40
The special sewer tax,	8,203 39
	<hr/>
	\$20,601 19

Orders have been drawn by the Trustees for the past year and expended as follows:

On highways,	\$4,782 18
For fire department,	1,484 92
For miscellaneous purposes,	5,319 22
In settlement of suits against village,	2,168 65
For construction of sewers,	13,727 47

Total amount, except on water fund,	\$27,482 44
Orders drawn on water fund,	22,161 99

\$49,644 43

The different classification of some items in my report will account for an apparent discrepancy, when compared with the reports of Trustees and Treasurer, but the total footings will be found to agree. Orders for miscellaneous purposes include some bills contracted by previous boards of Trustees. For particulars you are referred to the list of orders drawn by Trustees.

BONDED DEBT.

Reservoir bonds, 6s, due July, 1880,.....	\$5,000 00
“ “ “ 1881,.....	5,000 00
“ “ “ 1884,.....	5,000 00
“ “ “ 1885,.....	5,000 00
Funding bonds, 5s, Jan., 1899,.....	13,500 00
Water supply bonds 5s, due July, 1893,...	25,000 00
“ “ “ Jan. 1897,.....	6,000 00
“ “ “ July, 1899,.....	18,000 00

Total water bonds,..... \$82,500 00

\$2,500 funding bonds reported last year as unsold, and in the hands of the Treasurer, have been cancelled and destroyed. \$18,000 of 4½ per cent. bonds, prepared by the Trustees, but not sold, have also been destroyed by your Auditor.

ESTIMATE FOR WATER DEPARTMENT, 1880-81.

LIABILITIES.

Trustees' orders for construction of water works outstanding,.....	\$1,746 48
Interest due on bonds, July, 1880,.....	2,762 50
“ “ Jan., 1881,.....	1,562 50
Bonds maturing July, 1880,.....	5,000 00
Past due coupons,.....	50 00
	<hr/> \$11,121 48

RECEIPTS.

Income from water rents over ordinary repairs,.....	\$7,000 00
Cash in hands of commissioners,.....	34 30
Water rents in treasury,	178 94
Estimated value of unpaid water rents,	2,000 00
Unexpended balance in treasury, being proceeds from the sale of bonds...	515 37
	<hr/> 9,728 61

Estimated amount to be provided for,..... \$1,392 87

In this statement it is assumed that the Water Department should take care of itself, and that any balance of funds in the treasury realized from the sale of water bonds should be transferred to the water rents account, and that unpaid construction orders should be paid from that fund. A vote of the village will be necessary, directing the Treasurer and the Water Commissioners to carry this into effect.

Orders have been drawn by the Trustees upon the fund provided for the new water supply to the amount of \$649.89, covering bills which have not received the approval of the water supply committee, and which your auditor considers should be paid as miscellaneous orders, unless otherwise directed by the village. These orders have reduced the unexpended balance in the treasury to the sum above stated. For explanation you are referred to the report of the Trustees. It may be necessary to refund or arrange to extend the payment of \$2,500 of the bonds due July, 1880, as the assets may not be available in time to meet liabilities. The bonds issued were not quite sufficient to cover the construction account of the new water works—thus causing a slight deficit in the finances of the water department for the current year.

OTHER LIABILITIES OF THE VILLAGE.

Trustees' orders outstanding, old.....	\$7,568 42	
“ “ “ new....	6,073 05	
		<hr/> \$13,641 47

ASSETS.

Cash in treasury.....	\$2,424 95	
Taxes with collector.....	936 01	
		<hr/> \$3,360 96
Liabilities over assets.....	\$10,280 51	
Trustees' estimate of expenses for current year...	5,000 00	
		<hr/>
Amount to be provided for.....	\$15,280 51	

I am informed by the Trustees that there are no unsettled bills against the village except one for legal services rendered by Joel C. Baker and some expenditures on walks, etc., made during the present month.

To pay up the indebtedness of the village and provide \$5,000 for the expenses of the ensuing year will require a tax of 95 per cent. on the list of 1880.

R. BARRETT, *Auditor.*

Rutland, April 22, 1880

Engineer's Report.

To the Trustees and Voters of the Town of Rutland:

The undersigned, Chief Engineer of the Fire Department of the Village of Rutland, agreeably to the provisions of section 4 of "An ordinance establishing a Fire Department," herewith submits his annual report of the property belonging to the Department, the condition thereof, the losses by fire, and causes thereof, and insurance thereon, "so far as they may be ascertained," etc., as required by said ordinance.

FIRES.

During the past year the Department has been called to, and rendered services at fires, as follows:

1879.

May 10. Alarm; Mrs. Sullivan's chimney, West street.
